

Mudasir Khan

Sr. Software Quality Assurance Engineer

☎ +92 342 9273623 | mudasirk479@gmail.com | <https://www.linkedin.com/in/mudasir-khan-00335912b/>

Professional Summary

Detail-oriented Sr. SQA Engineer with 4+ years of experience in manual and automation testing across web and mobile platforms. Skilled in designing and executing test strategies, automation frameworks, and performance testing. Strong expertise in SDLC, STLC, Agile methodologies, API Testing, and Test Automation using modern tools and technologies. Adept at collaborating with cross-functional teams to deliver high-quality software solutions.

Core Competencies

- Manual & Automation Testing (Selenium with Python, Cypress.io)
- Test Planning, Test Case Design, Verification & Validation
- Regression, Functional & Non-Functional Testing
- API Testing (Postman, REST APIs)
- Performance Testing (JMeter, BlazeMeter)
- Bug Tracking & Project Management (JIRA, ClickUp)
- Version Control (Git, GitHub, Git Bash)
- eCommerce Testing (Magento, Vue.js 2)

Professional Experience

Mountain Tech – Islamabad, Pakistan

Sr. SQA Engineer | Sep 2024 – Present

- Leading QA efforts for multiple in-house and client-facing software projects.
- Designing and executing comprehensive test strategies, ensuring high-quality product delivery.
- Implementing automation frameworks using Selenium and Cypress to improve test efficiency.
- Conducting performance testing using JMeter and API validations with Postman.
- Mentoring junior QA engineers and overseeing daily test execution in Agile/Scrum environment.
- Collaborating with cross-functional teams to identify, track, and resolve issues early in SDLC.

- Key Achievements:
- ✓Established a scalable automation framework reducing release cycle time by 30%.
- ✓Improved defect detection rate by implementing shift-left testing practices.

Tile Mountain – Islamabad, Pakistan

Sr. SQA Engineer | Jan 2022 – aug 2024

- Conducted daily regression testing across desktop, iOS, Android, and tablet devices to ensure cross-platform stability.
- Automated TileMountain.co.uk using Selenium (Python) and BathroomMountain.co.uk using Cypress (TypeScript).
- Performed API Testing using Postman to validate backend integrations.
- Designed, implemented, and executed test plans, test cases, and automation scripts.
- Collaborated with developers, product managers, and business teams to identify and resolve defects.
- Managed code versions and releases using Git/GitHub.
- Improved QA processes by integrating Agile/Scrum testing practices.
- Key Achievements:
- ✓Reduced manual testing effort by 40% through automation coverage.
- ✓Successfully implemented cross-browser automation framework ensuring faster release cycles.

Albero IT – Pakistan

SQA Engineer | Jan 2020 – Dec 2021

- Conducted manual and automation testing across multiple web projects.
- Developed and executed test scenarios to identify and track bugs.
- Coordinated with developers to ensure timely fixes and releases.
- Performed regression and functional testing on web applications.

Education

Bachelor of Science in Computer Science (BSCS)

University of Malakand – Dec 2019

Certifications

- Fundamentals of Git – 10Pearls
- BlazeMeter for Load Testing
- Introduction to API Testing with Postman
- Test Automation with Cypress
- JIRA Certification – Coursera

Technical Skills

- Languages/Frameworks: Python, TypeScript, JavaScript
- Testing Tools: Selenium, Cypress.io, Postman, JMeter, BlazeMeter
- Version Control: Git, GitHub
- Project Management: JIRA, ClickUp
- Databases: MySQL (basic queries)
- Platforms: Windows, Linux, Mobile (iOS & Android)
